

M.G. Newell is a full service provider of sanitary equipment for the food, beverage, pharmaceutical and personal care industries, providing superior products and customized services since 1885.

We start with a solid foundation – SERVICE! M.G. Newell is a leader in providing unparalleled service to sanitary processing industries. We have achieved this through our extensive experience and total focus on the needs of our customers. We stay attuned to your needs throughout every phase of our relationship with you. Your concerns are our concerns. Your problems become our problems. Ultimately, our expert solutions and service become your plan for success.

CUSTOM DESIGN, FABRICATION & INSTALLATION

Engineers and technicians design, customize and build equipment for all sanitary processing requirements including new greenfield installations, skid-mounted systems, valve clusters, flowverter panels, hot water sets and holding tubes.

Skidded systems for:

- Inline blending
- Heat exchange
- CIP/COP
- Filtration
- Temp Control
- Pasteurization
- Mixing
- Batching

FULL-SERVICE DISTRIBUTOR

- Pumps, valves, fittings and tubing
- Fluid and material handling systems and components
- General plant supplies and parts
- Heat exchangers, mixers
- Instrumentation
- Homogenizers, separators
- Scales, filtration, strainers

Newell Automation

We understand the purpose behind the process. Working along with our process engineers, our controls team will identify the appropriate instrumentation and control functionality for your process. From conceptual design to installation and start-up, our engineers and technicians will develop and validate a system that meets your requirements.

- PLC design and programming
- HMI design and programming
- Control panel design and fabrication

CALIBRATION AND MAINTENANCE SERVICES

Field technicians conduct instrument repair, preventive maintenance, calibration of existing equipment and assist in the start-up of new, on-site installations.

As an SPX Certified Repair Center, we are one of a few distributors to complete their rigorous program requirements. Our technicians are qualified to disassemble, evaluate and rebuild WCB and APV pumps and valves.

Greensboro Division / Corporate Headquarters
301 Citation Court
Greensboro, NC 27409
Phone: 336.393.0100 / 800.334.0231
Fax: 336.393.0140

Louisville Division
4400 Bishop Lane, Suite 112
Louisville, KY 40218
Phone: 502.459.7475 / 800.459.7475
Fax: 502.459.7633

Nashville Division
334 Free Hill Road, Suite B
Hendersonville, TN 37075
Phone: 615.822.3030 / 855.749.4820
Fax: 615.822.3031

PRODUCT LINES

ADMIX

In-tank and In-line High Shear Mixing

SANI-MATIC

CIP/COP Systems, Cabinet & Tunnel Washers

ANDERSON-NEGELE

Instrumentation

SPX FLOW (APV, Waukesha Cherry-Burrell)

Pumps, Valves, Heat Exchangers, Homogenizers, Separators

ITT

High-Purity Diaphragm Valves

Contact us to see how we make it work better for your specific needs.

Ace Sanitary

Hoses and fittings, wash stations

Ampco Pumps

Centrifugal and PD pumps

APV (an SPX Flow Brand)

Pumps, valves, HEX, homogenizers

APV Systems (an SPX Flow Brand)

Evaporators, UHT, aseptic

Archon Industries

Spray nozzles, hoses, wash down equipment

Armology

Surface enhancements

Atlantium

UV water sterilization systems

Bornemann

Twin-Screw pumps

Breddo Likwifier

High speed/high shear mixing/cooking tanks

Cesco Magnetics

Magnets

Chester Jensen

Cooker/Coolers, HEX

Enerquip

Shell and tube heat exchangers

Federal Manufacturing

Rotary Fillers

Feldmeier Equipment

Heat exchangers, tanks

Flowtrend

Valves, tank equipment

Fluid Line Technology

High-purity valves, heat exchangers

Fusion Fluid Equipment

Mixers

Gerstenberg Schroder

Pumps, heat exchangers

Graco

Diaphragm pumps, bin & drum unloaders

Haynes Manufacturing

Food-grade lubricants

Heateflex

In-line fluid heaters

Hydro-Thermal

In-line steam injection

Kest Technology

High purity mag mixers

Lee Industries

Tanks, kettles, mixers

Micro-Motion

Mass flow meters

Newark Wire

Strainers, wire filters & baskets

Newell Automation

Control software & hardware, automation, control panels

Pentair-Haffmans

CO₂ and O₂ measurement

QSM/Tru-Flo

Hand valves

Quantum Flow Technologies

Liquid gassing/degassing systems

RathGibson

Sanitary tubing

ReoTemp Instruments

Temp & pressure instrumentation

RubberFab

Sanitary gaskets and hose assemblies

Sartorius

Scales, check weighers, metal detection, load cells

Seital Separation Technology

Centrifuges, separators

Shelco Filters

Filter cartridges and housings

SlipNOT Metal Flooring

Stainless steel slip resistant flooring

Spirax-Sarco

Steam traps, valves, systems

Stainless Motors

All-stainless motors

Standard Pump

AODD & progressive cavity pumps

StoneL

Valve automation and communication

TBL Plastics

High-purity, single use tubing & fittings

Tel-Tru Manufacturing

Temp and pressure instrumentation

Thermaline

Heat exchangers

TrueClean

Tank cleaning & hygienic equipment

Unibloc

Sight glasses, strainers, lab pumps

VNE

Valves, fittings

Walker Engineered Products

Vessels, tanks

Watson Metal Masters

Tank and vessel manufacturer

Waukesha Cherry-Burrell (an SPX Flow Brand)

Pumps, valves, HEX, fittings
