Providing hygienic processing equipment and customized services

Since 1885

We Make It Work Better – It's not just a tag line; it is a commitment we make to provide unparalleled service and quality parts through every phase of our customer relationship.

Since 1885, M.G. Newell has remained a family-owned company. We are a full service provider of sanitary equipment for the food, beverage, dairy, pharmaceutical and personal care industries. We carry a broad range of pumps, valves, tanks, fittings and other manufacturing supply needs. In addition to general supplies and parts, we also work with customers to design and fabricate cost-effective, customized systems to fit their space requirements.

Capabilities include:

- Brewhouse installation; Minor layout changes to optimize fit in existing space
- Control systems and SCADA programming, recipe and batch automation
- Control system updates; automation of brewing processes
- UL508a control panel design and fabrication
- Design and installation of glycol loops with drops and controls
- Connection of water lines and other utilities
- Design, fabrication and installation of flow panels
- Design, fabrication and installation of CIP/COP systems; CIP/COP upgrades and controls additions
- Miscellaneous processing parts, i.e. hoses, gaskets, seal kits, triclamps, valves, etc; DIN and US sizes available
- Pump carts with VFDs and other options
- Filtration systems
- Sanitary piping and welding
- Instrument calibration
